

# CORNERSTONE VNA HONORS LAARS WITH THE 2022 CORNERSTONE AWARD

COMMUNITY

JUNE 30, 2022

BY [CITY OF ROCHESTER, NH](#)

There are many businesses within the community that are quietly engaging with, and generously supporting, local nonprofit organizations. Laars Heating Systems in Rochester is one of those businesses that really stands out as a partner, supporter, and friend to Cornerstone VNA, a local nonprofit home health and hospice care provider.

Every year, Cornerstone VNA awards the Cornerstone Award to a local business, community member, volunteer, or staff member to recognize their dedication and commitment to advancing the mission of Cornerstone VNA. This year, the Cornerstone Award was awarded to Laars Heating Systems during a special donor appreciation event held at Cornerstone VNA on June 7th. Mark Farrell, Director of Manufacturing Operations at Laars, who was unable to attend the event in person, proudly accepted the award virtually. Mark shared, “You’re near and dear to Laars Heating Systems hearts. All of our employees know of Cornerstone VNA and have used many of your services, including myself and my family members. It’s a joy to work with an organization like Cornerstone VNA. We look forward to continuing our relationship and growing it even further. Thank you for this, it is truly appreciated very much by Laars.”

According to Julie Reynolds, President/CEO of Cornerstone VNA, “Laars first joined our donor family in 2016 when they became a sponsor of our annual dinner and silent auction event. Every year since, they have sponsored our fundraising events and have been present at many community and donor events.”

In addition to participating in and supporting events, Laars has been partnering with Cornerstone VNA to coordinate wellness clinics for their employees such as cholesterol, blood pressure, and glucose screenings, as well as flu clinics. Erika Lee, Advancement Director at Cornerstone VNA adds, "We are grateful for their support, as well as their efforts to partner with us to support the health and wellness of their employees." Lee continues, "We truly value this relationship we have developed. Laars is a shining example of a business making a difference in their local community, and we are honored to give them this special award."
