

SUBJECT:	NUMBER:	DATE:
NeoTherm Commercial Touch Screen Standard	15-4	July 6, 2015

To: Regional Sales Managers, Manufacturer's Representatives, Distributors and Internal Departments

From: Chuck O'Donnell, Director of Marketing

We're excited to announce that beginning on July 27, 2015 all commercial NeoTherm Boilers and Volume Water Heaters will be furnished with the fully featured color touch screen display as standard equipment!

The large 8" color touch screen allows you to easier access the full functionality of the NeoTherm control system and more easily integrate a NeoTherm cascade system into building automation networks.

Use this to your advantage when quoting against the competition!

Boiler Sizes: 285 through 850 MBH
Volume Water Heater Sizes: 150 through 850 MBH

Shipments Begin: July 27, 2015

Updated literature included with this announcement and is available at www.laars.com

NOTE: Residential NeoTherms (80-210 MBH) can add the color touch screen as an option.

Order kit KM50D7130: LIST price \$730
